NOTICE OF PRIVACY PRACTICES

The medical practices of Doctor's Robert W. Okerblom M.D., Donald J. Hole M.D., Rachel L. Zonca D.O., Sean Christiansen, D.O. and associates have implemented policies to protect the privacy of your medical records. The following is a description of how we manage your individual medical information.

A written or electronic record of your health care is constructed at each encounter. This record may include your symptoms, examination, test results, treatment plans, outside records, and other medical information. Transcription services are often utilized. Our employees access this record only in legitimate medical or business reasons. All employees are trained in patient confidentiality procedures. Safeguards are taken to prevent the unintended disclosure of your health care information during creation, utilization, storage, and destruction. Anything that identifies a patient with their individual medical care is protected.

By law, your medical information may be shared (without your authorization) for:

1. Treatment- To facilitate your care we may share information with consulting physicians, health care entities, Public Health and legal entities, and on call physicians. For example, we will send a consulting physician relevant chart notes.
2. Payment- To obtain payment from third parties, we will provide requested information to insurers. For example, your insurance company may request chart notes before payment.
3. Healthcare Operations- We may supply medical information for the purposes of quality control, business activities, and other health care operations. For example, we may need to call your home to remind you of an appointment.

Any other disclosures of your medical record will require your written or expressed authorization. This even includes disclosures to non-dependent family members. All disclosures of your record requiring authorization will be documented.

3. To file written complaints concerning your records to our office manager.
4. To revoke in writing any prior disclosure authorizations at any time.
5. To request in writing that we communicate with you in alternative methods.
